

Nimobent 30

Tablets

Nimodipine 30mg

Enhances cerebral blood flow by causing **vasodilation**, especially in ischemic areas.

Helps improve **oxygen and nutrient** delivery to brain tissues.

Provides **neuroprotective effects** by reducing calcium overload in neurons.

Supports recovery and improves outcomes in **acute ischemic stroke**.

Well tolerated with a favorable **safety profile**.

Indications

Acute Ischemic Stroke

Subarachnoid Hemorrhage

Cerebrovascular Insufficiency

Post-Stroke Recovery

Migraine & Headache
