

Oxyniff P Nasal Drop

**Oxymetazoline HCL I.P. 0.025% w/v +
Benzalkonium Chloride Solution I.P. 0.02%
v/v Nasal Drops**

Detailed Product Description

This nasal drop formulation is specifically designed to address nasal congestion caused by various conditions such as the common cold, sinusitis, and allergies. Oxymetazoline Hydrochloride, the active ingredient, acts as a nasal decongestant by constricting the swollen blood vessels in the nasal passages, providing quick and lasting relief. Benzalkonium Chloride ensures the product remains sterile, maintaining its safety and efficacy throughout its use.

Key Features and Benefits

- Rapid and Effective Relief**
 - Oxymetazoline HCL offers fast relief by clearing blocked nasal passages within minutes.
 - Provides freedom from nasal discomfort, ensuring smooth and easy breathing.
- Long-Lasting Action**
 - One application works effectively for up to 12 hours, allowing uninterrupted daily activities and restful sleep.
- Sterility and Hygiene**
 - Benzalkonium Chloride, a proven antimicrobial agent, prevents contamination and keeps the solution safe for use over time.
- Versatile Use**
 - Suitable for managing nasal congestion due to colds, seasonal allergies, and sinus infections.
- Convenient Application**
 - Designed with a user-friendly dropper for precise, mess-free administration.

How It Works

- Oxymetazoline Hydrochloride:** Acts on alpha-adrenergic receptors in the nasal mucosa, causing vasoconstriction (narrowing of blood vessels). This reduces swelling and opens up nasal airways for improved airflow.

- Benzalkonium Chloride:** Preserves the sterility of the solution and prevents bacterial or fungal growth in the formulation.

Indications

- Nasal congestion caused by:
 - Common cold
 - Sinusitis
 - Allergic rhinitis
 - Upper respiratory tract infections

Dosage and Administration

- For Adults and Children (6 years and above):**
 - Instill 2-3 drops in each nostril, 2-3 times daily.
- For Children below 6 years:**
 - Use under medical supervision.

Application Steps

- Blow your nose gently to clear nasal passages.
- Tilt your head slightly backward or lie down comfortably.
- Instill the recommended number of drops into each nostril.
- Remain in the same position for a few minutes to ensure proper absorption.

Precautions

- Avoid exceeding the recommended dosage.
- Prolonged use beyond 7 days may result in rebound congestion.
- Consult a doctor if you experience persistent symptoms or side effects.
- Keep the dropper clean and avoid direct contact with the nostrils to prevent contamination.

Storage Instructions

- Store in a cool, dry place away from direct sunlight and moisture.
 - Keep the bottle tightly closed after use.
 - Keep out of reach of children.
-

Composition (Per mL)

- **Oxymetazoline Hydrochloride I.P.:** 0.025% w/v
 - **Benzalkonium Chloride Solution I.P.:** 0.02% v/v
 - Excipients: q.s.
-

Who Can Benefit?

This product is ideal for individuals experiencing nasal congestion caused by:

- Seasonal allergies and hay fever
- Acute and chronic sinusitis
- Common colds or flu-like symptoms

Why Choose This Product?

1. **Fast-Acting Relief:** Clears nasal congestion within minutes.
 2. **Lasting Comfort:** Reduces the need for frequent reapplication.
 3. **Safe and Hygienic:** Antimicrobial properties ensure product sterility.
 4. **Convenient Use:** Easy-to-carry and simple to administer at home or on the go.
-

For anyone looking for reliable relief from nasal congestion, this product offers a perfect balance of efficacy, safety, and convenience. Consult your healthcare provider for personalized advice or recommendations.
