

Information For the User

CORAL CALCIUM - ELEMENTAL CALCIUM 225 MG + FOLIC ACID 1.5 MG + VITAMIN B6 3 MG + Methylcobalamin 1500 MCG + VITAMIN D3 250 IU Capsule

# Nuroslide Coral Capsule

**Brand Name:** Nuroslide Coral Capsule

**Dosage Form:** Capsule

**Therapeutic Category:** Neurotonic and Bone Health Supplement

## Composition:

Each hard gelatin capsule contains:

- Coral Calcium – Equivalent to Elemental Calcium 225 mg
- Folic Acid IP – 1.5 mg
- Vitamin B6 (Pyridoxine Hydrochloride IP) – 3 mg
- Methylcobalamin – 1500 mcg
- Vitamin D3 (Cholecalciferol IP) – 250 IU

## Pharmacology & Mechanism of Action:

Nuroslide Coral Capsule is a comprehensive neurovitamin and bone health supplement. Coral Calcium is a natural and bioavailable source of elemental calcium that supports bone mineral density and muscular function. Folic Acid and Vitamin B6 help in homocysteine metabolism, improving nerve conduction and reducing cardiovascular risk. Methylcobalamin, the neurologically active form of Vitamin B12, supports nerve regeneration and DNA synthesis. Vitamin D3 aids in calcium absorption and plays a crucial role in bone metabolism and immune function. This combination is particularly effective in addressing calcium deficiency with co-existing neurological conditions.

## Indications:

- Peripheral neuropathy
- Neuralgia, paresthesia, and neurodegenerative disorders
- Calcium and Vitamin D3 deficiency
- Osteopenia and osteoporosis adjunct therapy
- General fatigue and weakness in elderly or vitamin-deficient individuals
- Adjunct in pregnancy and lactation for bone and nerve support

## Dosage & Administration:

One capsule once daily after meals or as directed by the physician

To be swallowed whole with water

## Contraindications:

- Hypersensitivity to any of the ingredients
- Hypercalcemia or vitamin D toxicity
- Severe renal impairment

## Warnings & Precautions:

- Use with caution in patients with renal stones or impaired kidney function
- Regular monitoring of serum calcium levels is recommended during prolonged therapy
- Safe in pregnancy and lactation when used as per medical advice

**Adverse Effects:**

Generally well tolerated

Rarely may cause nausea, bloating, constipation, or metallic taste

Allergic reaction is rare but possible in hypersensitive individuals

**Overdose:**

Prolonged or excessive intake may lead to hypercalcemia or vitamin toxicity

In case of overdose, symptomatic and supportive treatment should be initiated

**Storage:**

Store below 25°C in a dry and cool place

Protect from direct sunlight and moisture

Keep out of reach of children
