

Ofloglee 100 Suspension

Brand Name: Ofloglee 100 Suspension

Dosage Form: Oral Suspension

Composition:

- **Ofloxacin (100 mg/5 ml)**

Therapeutic Segment:

Antibacterial / Anti-infective Segment

Therapeutic Indication:

Ofloglee 100 Suspension is used for the **treatment of bacterial infections** caused by susceptible microorganisms. It is commonly prescribed for **respiratory tract infections, urinary tract infections, gastrointestinal infections, and skin or soft tissue infections.**

It helps in:

- Treating **bronchitis, pneumonia, and sinusitis**
- Managing **urinary tract and bladder infections**
- Controlling **bacterial diarrhea, typhoid, and other gastrointestinal infections**
- Treating **ear, throat, and skin infections** in children and adults

Mechanism of Action:

- **Ofloxacin** is a **fluoroquinolone antibiotic** that works by **inhibiting bacterial DNA gyrase and topoisomerase IV**, enzymes essential for bacterial DNA replication, transcription, and repair.
- This action prevents the growth and multiplication of bacteria, leading to their elimination.

Dosage & Administration:

- Shake well before use.
- The dose is usually based on **body weight and severity of infection** as directed by the physician.
- Administer using a **measuring cup or spoon** for accurate dosage.
- Can be taken with or without food, but taking it after meals reduces stomach discomfort.

Contraindications:

- Known hypersensitivity to **ofloxacin or other quinolone antibiotics**
- **History of tendon disorders** associated with quinolone use
- Avoid use in **children below 1 year** unless prescribed by a doctor

Warnings & Precautions:

- Maintain **adequate hydration** during therapy.
- Avoid **excessive sunlight exposure** during treatment.
- Use with caution in **patients with kidney disease or epilepsy**.
- Consult a doctor before using alongside **antacids or iron supplements**, as they may reduce absorption.

Possible Side Effects:

- Nausea, vomiting, or diarrhea
- Headache or dizziness
- Insomnia
- Rarely: tendon pain, photosensitivity, or allergic reaction

Storage:

Store in a **cool, dry place below 25°C**, away from direct sunlight. Keep tightly closed and out of reach of children.

Segment:

Antibacterial / Anti-infective Segment – It helps in **eliminating bacterial infections and promoting faster recovery from infectious diseases**.
