

Information For the Use of
Oxaceprol Sustained Release Tablets 600 mg Tablet

Oxaplor OD Tablet

Brand Name: Oxaplor OD Tablet

Dosage Form: Sustained Release Tablet

Composition:

Each sustained-release tablet contains:

- Oxaceprol IP 600 mg
-

Description:

Oxaplor OD Tablet contains Oxaceprol, an anti-inflammatory and chondroprotective agent indicated for the management of degenerative and inflammatory joint disorders. It is used to reduce pain, inflammation, and joint stiffness associated with osteoarthritis and related musculoskeletal conditions. It helps in improving joint mobility and functional activity through modulation of inflammatory processes.

Indications:

Indicated for the treatment of:

- Osteoarthritis
- Degenerative joint disorders
- Musculoskeletal inflammatory conditions

It helps in reducing joint pain, swelling, and stiffness while improving mobility and physical function.

Dosage & Administration:

Dosage should be as directed by the physician.

The tablet should be swallowed whole with water, preferably after meals.

Do not crush or chew the sustained-release tablet.

Pharmacological Action:

- Oxaceprol inhibits leukocyte adhesion and migration at inflammatory sites, thereby reducing inflammatory response.
- It improves microcirculation within joint tissues and supports cartilage metabolism.
- The sustained-release formulation provides prolonged therapeutic action and symptom control.

These effects help in relieving pain and improving joint function.

Side Effects:

Generally well tolerated.

Common side effects may include gastrointestinal discomfort, nausea, abdominal pain, or mild diarrhea.

Rarely, skin rash or hypersensitivity reactions may occur.

Precautions & Warnings:

- Use with caution in patients with gastrointestinal disorders or hepatic impairment
 - Monitor during prolonged therapy
 - Not recommended in patients with known hypersensitivity to Oxaceprol
 - Use during pregnancy and lactation only if advised by the physician
-

Drug Interactions:

No significant drug interactions have been commonly reported.

However, caution is advised when used with other anti-inflammatory medications.

Storage:

Store below 25°C in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.
