### Pharmaceutical Segment:

Dermatology | Antiparasitic | Antiseptic | Topical Treatment

### Brand Name:

[Your Brand Name]

## Therapeutic Uses & Benefits

### Primary Indication:

- Effective treatment for scabies, eliminating mites and providing relief from itching and skin irritation.

### Secondary Benefits:

- Kills head lice and body lice, preventing reinfestation.
- Cetrime provides antiseptic protection against secondary bacterial infections caused by scratching.
- Soothes skin, reducing inflammation and discomfort.
- Quick-absorbing, non-greasy formula for ease of application.
- Dermatologically tested for safety on all skin types, including sensitive skin.

## How It Works

- **Permethrin 5.0% w/v:** Targets the nervous system of mites and lice, effectively eliminating infestations.
- **Cetrime 0.1% w/v:** Acts as an antiseptic, preventing bacterial infections and promoting faster skin healing.

## Usage Instructions

### For Scabies Treatment:

1. Wash and dry the affected area before application.
2. Apply a thin layer of lotion, covering the entire body from the neck down.
3. Leave on for 8 to 12 hours or overnight before rinsing with mild soap and water.
4. Reapply after 7 days if necessary.

### For Lice Treatment:

1. Apply the lotion to the scalp and hair, ensuring full coverage.
2. Leave on for 10 minutes before rinsing thoroughly with water.
3. Use a fine-toothed comb to remove dead lice and nits.
4. Repeat the treatment after 7 days if needed.
