

A Powerful Analgesic for
Pain free Life

Piffcam

Piffcam Piroxicam (20mg) DT Tablets

Piffcam Piroxicam I.P. 20mg Injection

- Piroxicam is used for pain relief.
- It is a non-steroidal anti-inflammatory drug (NSAID)
- Inhibits activation of neutrophil even when produces of cyclo-oxygenase are present thus producing additional mode of anti-inflammatory action.
- Better tolerated than aspirin & indomethacin.
- Potent and effective anti-inflammatory agent
