

Information For the User

Lidocaine (3% w/w) + Calcium Dobesilate (0.25% w/w) + Hydrocortisone (0.25% w/w) + Zinc (5% w/w)

Pilefast Ointment

Brand Name: Pilefast Ointment

Dosage Form: Rectal/Topical Ointment

Therapeutic Category: Anti-hemorrhoidal, Anti-inflammatory, Local Anesthetic

Composition:

Each gram contains:

- Calcium Dobesilate I.P. 0.25% w/w
- Anhydrous Lignocaine I.P. 3.0% w/w
- Hydrocortisone Acetate I.P. 0.25% w/w
- Zinc Oxide I.P. 5% w/w
- Excipients q.s.

Pharmacology & Mechanism of Action:

Calcium Dobesilate is a vasoprotective agent that reduces capillary permeability and improves venous tone, aiding in the management of hemorrhoids and reducing inflammation. Lignocaine is a local anesthetic that blocks nerve conduction, providing immediate pain relief.

Hydrocortisone acetate is a corticosteroid that reduces local inflammation, swelling, and itching. Zinc oxide acts as a skin protectant and has mild astringent and antiseptic properties, promoting healing and soothing irritated tissue.

Indications:

- Internal and external hemorrhoids
- Anal fissures
- Perianal inflammation
- Pruritus ani (anal itching)
- Post-hemorrhoidectomy or anal surgery care

Dosage & Administration:

- Clean the affected area gently with warm water and pat dry
- Apply a small amount of ointment 2–3 times daily or as directed by the physician
- In case of internal hemorrhoids, use the applicator provided for intrarectal application
- Wash hands thoroughly after use

Contraindications:

- Hypersensitivity to any ingredient in the formulation
- Active infections at the application site
- Tubercular, fungal, or viral lesions in the rectal area

Warnings & Precautions:

- For external and intrarectal use only
- Prolonged use of corticosteroids may lead to skin thinning or sensitization
- Avoid contact with eyes or mucous membranes other than rectal mucosa
- Use under medical supervision during pregnancy and lactation

Adverse Effects:

- Burning or stinging sensation at the site of application
- Allergic skin reactions (rare)
- Prolonged use may cause local skin atrophy due to corticosteroid

Storage:

Store in a cool, dry place below 25°C

Protect from direct sunlight and moisture

Keep out of reach of children
