

Information For the User
Pregabalin 75mg + Duloxetine 30mg Caps
(Delayed Release)

Pregahike D 75/30 Capsule

Pregahike D 75/30 Capsule

Composition:

Each hard gelatin capsule contains:

- **Pregabalin IP** ... 75 mg
- **Duloxetine Hydrochloride IP equivalent to Duloxetine** ... 30 mg (as delayed-release pellets)
- **Excipients** ... q.s.

Dosage Form:

Capsule

Therapeutic Category:

Neuropathic Pain Modulator + SNRI Antidepressant

Pharmacology & Mechanism of Action:

Pregabalin binds to voltage-gated calcium channels in the CNS, reducing the release of excitatory neurotransmitters like glutamate and substance P. Duloxetine is a selective serotonin and norepinephrine reuptake inhibitor, enhancing descending inhibitory pain pathways. The combination provides dual-action relief in chronic neuropathic conditions and mood-associated disorders.

Indications:

- Diabetic peripheral neuropathy
- Fibromyalgia
- Lumbar or cervical radiculopathy
- Generalized anxiety disorder
- Chronic pain syndromes with underlying mood disturbance

Dosage & Administration:

Take one capsule once or twice daily, as directed by the physician
Capsule should be swallowed whole, not crushed or chewed
Can be taken with or without food

Contraindications:

- Known hypersensitivity to either component
- Concomitant use with MAO inhibitors
- Severe hepatic or renal impairment

Warnings & Precautions:

- May cause sedation or dizziness—caution while driving or operating machinery
- Risk of suicidal thoughts—monitor behavior in initial weeks
- Gradual tapering is advised upon discontinuation
- Not recommended in pregnancy or lactation without medical supervision

Adverse Effects:

- Dizziness, somnolence, dry mouth
- Nausea, constipation, fatigue
- Peripheral edema (pregabalin), hypertension (duloxetine)

Drug Interactions:

- Avoid with MAOIs and serotonergic agents
- Use cautiously with CNS depressants
- Duloxetine metabolism may be affected by CYP1A2 and CYP2D6 inhibitors

Overdose:

May result in excessive sedation, confusion, or serotonin syndrome
Provide supportive care and symptomatic treatment

Storage:

Store below 25°C in a cool, dry place
Protect from light and moisture
Keep out of reach of children
