

Information For the User  
Ramipril 1.25 mg tablet

# Ramipril 1.25 tablet

**Brand Name:** Ramipril 1.25 Tablet

**Composition:**

Each film-coated tablet contains:

Ramipril IP 1.25 mg

**Therapeutic Indication:**

Indicated for the treatment of mild to moderate essential hypertension

Also used in the management of heart failure post-myocardial infarction and for the reduction of cardiovascular morbidity in high-risk patients

Helps lower blood pressure and reduce the risk of stroke, heart attack, and cardiovascular death

**Mechanism of Action:**

Ramipril is an angiotensin-converting enzyme (ACE) inhibitor

It inhibits the conversion of angiotensin I to angiotensin II, a potent vasoconstrictor

This results in vasodilation, reduced aldosterone secretion, decreased sodium and water retention, and lowered blood pressure

Improves endothelial function and reduces cardiac and vascular remodeling

**Dosage & Administration:**

Usual adult dose: one tablet once daily or as directed by the physician

Can be taken with or without food

Dose may be titrated gradually based on blood pressure response and renal function

Maximum antihypertensive effect may take several weeks

**Contraindications:**

Hypersensitivity to Ramipril, other ACE inhibitors, or any excipient

History of angioedema related to ACE inhibitors

Pregnancy and lactation

Severe renal impairment, bilateral renal artery stenosis

**Warnings & Precautions:**

Monitor blood pressure, renal function, and serum electrolytes periodically

Use with caution in patients with volume depletion, heart failure, or renal artery stenosis

May cause persistent dry cough reversible upon discontinuation

Discontinue immediately if pregnancy is detected due to risk of fetal toxicity

**Side Effects:**

Common: dizziness, headache, fatigue, hypotension, dry cough

Less common: nausea, abdominal pain, rash, taste disturbances

Rare: angioedema, hyperkalemia, renal impairment

**Storage:**

Store in a cool, dry, and dark place below 25°C

Protect from moisture and direct sunlight  
Keep out of reach of children

**Packaging:**

Ramipil 1.25 Tablet is available in blister or alu-alu strip packs

**Schedule:**

Schedule H Prescription Drug – To be sold by retail on the prescription of a registered medical practitioner only
