

Information For the User  
Ramipril 2.5 mg + amlodipine 5 mg tablet

# Ramipil AM Tablet

**Brand Name:** Ramipil AM Tablet

**Composition:**

Each film-coated tablet contains:

Ramipril IP 2.5 mg

Amlodipine Besylate IP equivalent to Amlodipine 5 mg

**Therapeutic Indication:**

Indicated for the treatment of essential hypertension in patients requiring combination therapy

Helps achieve better blood pressure control and reduces the risk of cardiovascular events

Also suitable for patients not adequately controlled on monotherapy with either agent

**Mechanism of Action:**

Ramipril is an ACE inhibitor that blocks the conversion of angiotensin I to angiotensin II, causing vasodilation, reduced aldosterone secretion, and decreased sodium and water retention

Amlodipine is a calcium channel blocker that inhibits calcium influx into vascular smooth muscle, causing peripheral vasodilation and reduced vascular resistance

The combination provides complementary antihypertensive effects for sustained blood pressure control

**Dosage & Administration:**

Usual adult dose: one tablet once daily or as directed by the physician

Take at the same time each day, with or without food

Dose may be adjusted based on blood pressure response and renal function

**Contraindications:**

Hypersensitivity to Ramipril, Amlodipine, or any component of the formulation

History of angioedema related to ACE inhibitors

Severe hypotension, cardiogenic shock, or severe hepatic impairment

Pregnancy and lactation

**Warnings & Precautions:**

Monitor blood pressure, renal function, and serum electrolytes regularly

Use with caution in patients with heart failure, renal impairment, or elderly patients

Avoid potassium supplements unless prescribed

Discontinue immediately if pregnancy is detected due to risk of fetal toxicity

**Side Effects:**

Common: dizziness, headache, fatigue, hypotension, peripheral edema

Less common: nausea, rash, palpitations, flushing

Rare: angioedema, hyperkalemia, renal dysfunction

**Storage:**

Store in a cool, dry, and dark place below 25°C

Protect from moisture and sunlight  
Keep out of reach of children

**Packaging:**

Ramipil AM Tablet is available in blister or alu-alu strip packs

**Schedule:**

Schedule H Prescription Drug – To be sold by retail on the prescription of a registered medical practitioner only
