

Information For the User
Ramipril 5 mg + Hydrochlorothiazide 12.5 mg tablet

Ramipil H Tablet

Brand Name: Ramipil H Tablet

Composition:

Each film-coated tablet contains:

Ramipril IP 5 mg

Hydrochlorothiazide IP 12.5 mg

Therapeutic Indication:

Indicated for the treatment of mild to moderate hypertension in patients requiring combination therapy

Helps achieve better blood pressure control and reduces the risk of cardiovascular events

Also used in patients not adequately controlled on monotherapy with either agent

Mechanism of Action:

Ramipril is an ACE inhibitor that blocks the conversion of angiotensin I to angiotensin II, resulting in vasodilation, reduced aldosterone secretion, and decreased sodium and water retention

Hydrochlorothiazide is a thiazide diuretic that promotes sodium and water excretion, reducing blood volume and peripheral resistance

The combination provides complementary antihypertensive effects, improving efficacy

Dosage & Administration:

Usual adult dose: one tablet once daily or as directed by the physician

Take at the same time each day, with or without food

Dose may be adjusted based on blood pressure response and renal function

Contraindications:

Hypersensitivity to Ramipril, Hydrochlorothiazide, sulfonamides, or any component of the formulation

History of angioedema associated with ACE inhibitors

Severe renal impairment, anuria, or bilateral renal artery stenosis

Pregnancy and lactation

Warnings & Precautions:

Monitor blood pressure, renal function, and serum electrolytes regularly

Caution in patients with volume depletion, heart failure, diabetes, or hepatic impairment

Avoid potassium supplements unless prescribed

Discontinue immediately if pregnancy is detected due to risk of fetal toxicity

Side Effects:

Common: dizziness, headache, fatigue, hypotension, cough

Less common: nausea, rash, muscle cramps, electrolyte imbalance

Rare: angioedema, hyperkalemia, renal dysfunction

Storage:

Store in a cool, dry, and dark place below 25°C
Protect from moisture and sunlight
Keep out of reach of children

Packaging:

Ramipil H Tablet is available in blister or alu-alu strip packs

Schedule:

Schedule H Prescription Drug – To be sold by retail on the prescription of a registered medical practitioner only
