Clopidogrel (75mg) Capsule **10mg**

Aspirin (75mg) + Rosuvastatin (20mg) +
Clopidogrel (75mg) Capsule **20mg**

INDICATIONS

Myocardial Infarction

Stroke and Angina

High lipid levels

Rheumatoid Arthritis

💧 **ROSUVASTATIN** is a lipid lowering medication that blocks the body's ability to produce bad cholesterol (LDL) and improves the level of good cholesterol (HDL).

💧 **ASPIRIN & CLOPIDOGREL** are antiplatelet medications. They work by preventing the platelets from sticking together and decrease the formation of harmful blood clots.

The Winning Combination
