

When Spasm *Knots* the Life

Scotspas **D**

Dicyclomine (10mg/ml) + Diclofenac (25mg/ml) Injection

Dicyclomine :

Dicyclomine is an anticholinergic drug commonly used to treat irritable bowel syndrome (IBS) and other gastrointestinal conditions. It works by relaxing the muscles in the gastrointestinal tract, helping to relieve cramps and discomfort.

Diclofenac :

Diclofenac is a nonsteroidal anti-inflammatory drug (NSAID) used to relieve pain, inflammation, and swelling. It's often used for conditions like arthritis, muscle pain, or acute injuries.
