

Information For the User
Tricholine Citrate (0.55gm) + Sorbitol (7.15gm) Syrup

Sobitri Syrup

Brand Name: Sobitri Syrup

Dosage Form: Syrup

Composition (per 15 ml):

- Tricholine Citrate I.P. 0.55 g
- Sorbitol I.P. 7.15 g

Therapeutic Segment:
Digestive / Liver Health Segment

Therapeutic Indication:
Indicated for:

- Supporting **liver function** and detoxification
- Promoting **bile secretion** and aiding in fat digestion
- Relieving mild **constipation or bowel irregularities** due to sorbitol content

It helps in **maintaining digestive health and proper liver function.**

Mechanism of Action:

- **Tricholine Citrate** promotes **bile flow** and helps reduce liver congestion, supporting detoxification.
- **Sorbitol** acts as an osmotic agent, softening stools and improving bowel movement.

Dosage & Administration:

- Adults: 15–30 ml, 1–2 times daily, or as directed by the physician.
- Children: Dose as prescribed by the physician.

Contraindications:

- Hypersensitivity to any component of the syrup
- Patients with intestinal obstruction

Warnings & Precautions:

- Use with caution in diabetic patients due to sorbitol content.
- Not recommended in cases of severe renal impairment without medical advice.

Side Effects:

- Mild diarrhea or abdominal discomfort may occur due to sorbitol.
- Rare allergic reactions.

Storage:

Store below 25°C in a cool, dry place.

Keep tightly closed and out of reach of children.

Packaging:

Available in **bottle/syrup pack** for oral administration.

Segment:

Digestive / Liver Support Supplement
