

Information For the User
Testosterone undecanoate 40mg Softgel

Testofoli 40 Softgel

Testofoli 40 Softgel

Dosage Form: Softgel Capsule

Composition:

Each softgel capsule contains:
Testosterone Undecanoate I.P. 40 mg

Description:

Testofoli 40 Softgel contains Testosterone Undecanoate, an androgen hormone used for testosterone replacement therapy in men with hypogonadism. It helps restore normal testosterone levels in the body, thereby improving energy levels, muscle strength, libido, and overall well-being. The softgel formulation allows better absorption of testosterone through the lymphatic system when taken orally with food.

Indications:

Male hypogonadism
Testosterone deficiency
Delayed puberty in males (under medical supervision)
Conditions associated with low testosterone levels

Dosage & Administration:

Dosage should be taken as directed by the physician.
Softgel capsule should be swallowed whole with water during or after meals.
Do not chew or crush the softgel capsule.

Pharmacological Action:

Testosterone Undecanoate is an androgen that is converted to testosterone in the body. It binds to androgen receptors and promotes the development and maintenance of male sexual characteristics, increases protein synthesis, supports muscle mass and bone density, and helps regulate libido and energy levels.

Side Effects:

Acne
Headache
Increased hematocrit
Fluid retention
Mood changes

Precautions & Warnings:

Use under medical supervision only.
Regular monitoring of testosterone levels, liver function, and lipid profile is recommended.
Use cautiously in patients with cardiovascular disease, prostate disorders, or liver impairment.
Not indicated for use in women or children unless specifically prescribed.

Drug Interactions:

May interact with anticoagulants, corticosteroids, and insulin or antidiabetic medications.
Consult physician before concomitant use with other medicines.

Storage:

Store below 25°C in a dry place.
Protect from light and moisture.
Keep out of reach of children.
