

Information For the Use of  
Lactobacillus rhamnosus GG (ATCC 53103) NLT 1 Billion CFU Drops

# Tolltic GG Drops

**Brand Name:** Tolltic GG Drops

**Dosage Form:** Oral Drops

**Composition:**

**Each ml contains:**

- *Lactobacillus rhamnosus* GG (ATCC 53103) NLT 1 Billion CFU
- Suitable base q.s.

---

**Description:**

Tolltic GG Drops contains *Lactobacillus rhamnosus* GG (ATCC 53103), a well-established probiotic strain known for its beneficial effects on gastrointestinal health and immune function. It is indicated for the restoration and maintenance of normal intestinal microflora. It helps in supporting digestive health, improving gut microbial balance, and enhancing natural immune defenses.

---

**Indications:**

**Indicated for the management of:**

- Acute diarrhea
- Antibiotic-associated diarrhea
- Gastrointestinal microbial imbalance
- Digestive disturbances in infants and children
- Supportive management of gastrointestinal health

It helps in restoring healthy intestinal flora, improving digestive function, and reducing the duration of diarrhea.

---

**Dosage & Administration:**

Dosage should be as directed by the physician.

The drops may be administered directly into the mouth or mixed with milk, water, or other suitable liquids.

Shake well before use.

Avoid mixing with hot beverages or hot foods.

---

**Pharmacological Action:**

- *Lactobacillus rhamnosus* GG colonizes the gastrointestinal tract and promotes the growth of beneficial intestinal bacteria.
- It helps maintain microbial balance by inhibiting the growth of harmful microorganisms.
- It supports intestinal barrier function and modulates immune responses within the gut.

These actions help in improving digestive health and maintaining normal gastrointestinal function.

---

**Side Effects:**

Generally well tolerated when used as recommended.

**Mild abdominal discomfort, bloating, or flatulence may occur occasionally.  
Hypersensitivity reactions are rare.**

---

**Precautions & Warnings:**

- **Use with caution in severely immunocompromised patients**
  - **Do not exceed the recommended dosage unless advised by the physician**
  - **Consult a healthcare professional before use in critically ill patients**
  - **Discontinue use if any hypersensitivity reaction occurs**
- 

**Drug Interactions:**

**No significant drug interactions have been reported.**

**Administration may be separated from antibiotic therapy by a few hours to optimize probiotic viability.**

---

**Storage:**

**Store below 25°C in a cool, dry place or as directed on the label.**

**Protect from direct sunlight and excessive heat.**

**Keep the container tightly closed after use.**

**Keep out of reach of children.**
