Flavour**

Tofosleep Solution

Triclofos Sodium 500mg. Solution

- Pediatric-friendly sedative designed to manage short-term insomnia in children.
- Works by inducing a calming effect on the brain to facilitate natural sleep.
- Effectively reduces the time taken to fall asleep during stressful periods.
- Ideal for providing sedation before diagnostic procedures or minor surgeries.
- Helps in managing irritability and extreme restlessness in younger patients.
- Formulated as a palatable liquid for easy administration and accurate dosing.
- Ensures a smooth transition into sleep without significant morning grogginess.
- Provides reliable relief from sleep disturbances caused by routine changes.
