

Information For the User
Trimetazidine controlled release 60 mg tablet

Trizapime 60 Tablet

Brand Name: Trizapime 60 Tablet

Composition:

Each film-coated controlled release tablet contains:

Trimetazidine Dihydrochloride IP (Controlled Release) 60 mg

Therapeutic Indication:

Indicated as an add-on therapy for the management of stable angina pectoris in patients inadequately controlled by or intolerant to first-line antianginal agents such as beta-blockers or calcium channel blockers

Helps reduce angina frequency improves effort tolerance and enhances quality of life in ischemic heart disease patients

Mechanism of Action:

Trimetazidine is a cytoprotective anti-ischemic agent that optimizes cardiac energy metabolism It shifts myocardial energy production from fatty acid oxidation to glucose oxidation leading to more efficient ATP generation under ischemic conditions

This protects myocardial cells against ischemia reduces intracellular acidosis and preserves cardiac function without affecting hemodynamics

Dosage & Administration:

Usual adult dose: one tablet twice daily (morning and evening) or as directed by the physician Swallow whole with water do not crush or chew

Should be taken with meals to improve gastrointestinal tolerance

Dose adjustment may be required in elderly patients and those with moderate renal impairment

Contraindications:

Hypersensitivity to Trimetazidine or any ingredient in the formulation

Parkinson's disease movement disorders tremors or related neurological conditions

Severe renal impairment (creatinine clearance <30 ml/min)

Warnings & Precautions:

Not indicated for treatment of acute angina episodes

Use with caution in elderly patients and those with renal dysfunction

Monitor for development of parkinsonian symptoms gait disturbances or tremors

Discontinue permanently if any movement disorder or extrapyramidal symptoms are observed

Side Effects:

Common: dizziness headache abdominal pain dyspepsia nausea vomiting

Less common: constipation rash pruritus

Rare: parkinsonism tremor gait instability thrombocytopenia agranulocytosis

Storage:

Store in a cool dry and dark place below 25°C

Protect from moisture and sunlight
Keep out of reach of children

Packaging:

Trizapime 60 Tablet is available in blister or strip packs

Schedule:

Schedule H Prescription Drug – To be sold by retail on the prescription of a registered medical practitioner only
