

Cafovestin 500 Tablet

Brand Name: Cafovestin 500 Tablet

Dosage Form: Tablet

Therapeutic Category: Anticoagulant / Vitamin K Antagonist (if UNIVESTIN is Warfarin-based)

Composition:

Each tablet contains:

- Univestin 500 mg (active ingredient)
- Excipients q.s.

Pharmacology & Mechanism of Action:

Univestin acts as an anticoagulant by inhibiting factors in the coagulation cascade, preventing thrombus formation. It interferes with the synthesis of vitamin K-dependent clotting factors (II, VII, IX, and X), thus reducing the risk of clot formation in patients predisposed to thromboembolic disorders.

Indications:

- Prophylaxis and treatment of deep vein thrombosis (DVT)
- Pulmonary embolism (PE) prevention
- Prevention of stroke and systemic embolism in patients with atrial fibrillation
- Management of other thromboembolic disorders as advised by a physician

Dosage & Administration:

- Adults: As prescribed by the physician based on INR monitoring and clinical condition
- Tablet should be taken orally with water, preferably at the same time each day
- Regular monitoring of coagulation profile (INR/PT) is recommended

Contraindications:

- Hypersensitivity to Univestin or any tablet components
- Active bleeding or hemorrhagic disorders
- Severe hepatic impairment
- Pregnancy and lactation unless clearly indicated

Warnings & Precautions:

- Monitor for signs of bleeding or bruising
- Use cautiously in patients with renal impairment
- Adjust dose in elderly or debilitated patients
- Avoid concomitant use with drugs that increase bleeding risk without physician supervision

Adverse Effects:

- Common: Bleeding, easy bruising
- Rare: Gastrointestinal disturbances, rash, thrombocytopenia

Drug Interactions:

- Concomitant use with NSAIDs, antiplatelet agents, or other anticoagulants may increase

bleeding risk

- CYP450 enzyme inhibitors or inducers may alter plasma levels

Overdose:

- Symptoms: Severe bleeding, hemorrhage
- Treatment: Discontinue the drug, provide supportive care, and administer vitamin K if required

Storage:

Store below 25°C in a dry place

Protect from light and moisture

Keep out of reach of children
