

Waxturn Ear Drop

Benzocaine (2.7% w/v) + Chlorbutol (5% w/v) + Paradichlorobenzene (2% w/v) + Turpentine Oil (15% w/v) Ear Drops

Product Description

This ear drop formulation is a combination of **local anesthetic, antiseptic, cerumenolytic, and anti-inflammatory agents** designed to relieve ear pain, soften earwax, and treat minor ear infections. It provides **fast pain relief** while effectively dissolving hardened earwax for easy removal.

Composition (Per mL of Ear Drops)

- **Benzocaine (2.7% w/v):** A local anesthetic that provides rapid pain relief by numbing the ear canal.
- **Chlorbutol (5% w/v):** An antiseptic and antifungal agent that helps prevent infections and keeps the ear clean.
- **Paradichlorobenzene (2% w/v):** A cerumenolytic agent that helps break down and dissolve earwax.
- **Turpentine Oil (15% w/v):** Acts as an anti-inflammatory and mild analgesic to relieve discomfort and assist in wax removal.

Mechanism of Action

- **Benzocaine** blocks nerve signals in the ear, reducing pain and discomfort.
- **Chlorbutol** acts as an antiseptic, preventing bacterial and fungal infections.
- **Paradichlorobenzene** dissolves and softens hardened earwax, making it easier to remove.
- **Turpentine Oil** helps in wax breakdown and provides mild anti-inflammatory action.

Indications

This ear drop is indicated for:

- Earache relief caused by minor infections or wax buildup
- Softening and removal of **excessive or impacted earwax**

- Relief from **ear congestion and discomfort**
- Prevention of bacterial and fungal infections in the ear canal

Dosage and Administration

- **Adults & Children (above 1 year):** 2-3 drops in the affected ear **2-3 times daily** or as directed by a physician.
- **For wax removal:** Use for **3-4 days**, then gently rinse with warm water if needed.
- **For pain relief:** Use as needed but not exceeding **7 days**.
- **Administration:**
 - Warm the bottle slightly by holding it in your hand before use.
 - Tilt the head sideways and instill the drops.
 - Keep the head tilted for a few minutes to allow absorption.
 - Do not insert any objects (e.g., cotton swabs) into the ear canal.

Contraindications

- Hypersensitivity to any of the ingredients.
- Perforated eardrum or ear injury.
- Severe ear infections requiring systemic antibiotics.
- Use in children below **1 year** without medical supervision.

Side Effects

- Mild **burning or stinging sensation** in the ear.
- Temporary dizziness.
- Allergic reactions like **redness, swelling, or rash** (rare).
- If symptoms worsen, discontinue use and consult a doctor.

Precautions and Warnings

- **Do not use in case of ear perforation, severe infection, or drainage (discharge from the ear).**
- Avoid contact with eyes or mucous membranes.
- If irritation or persistent symptoms occur, seek medical advice.

- **Not recommended for prolonged use beyond 7 days** unless advised by a doctor.
- Consult a doctor before use in **pregnant or breastfeeding women**.

Storage Instructions

- Store in a **cool, dry place**, away from direct sunlight.
- Keep tightly closed and **do not refrigerate**.
- Keep out of reach of children.

This **Benzocaine + Chlorbutol + Paradichlorobenzene + Turpentine Oil** ear drop is an effective solution for **ear pain relief, wax softening, and infection prevention**, providing **fast-acting comfort** and improved ear hygiene.
