

Zincotyle Syrup

Zinc Acetate U.S.P. 20 mg Solution Syrup

Description:

Zinc Acetate U.S.P. 20 mg Solution Syrup is a pharmaceutical-grade liquid formulation containing zinc acetate as its active ingredient. It is commonly used as a dietary supplement or therapeutic agent for zinc deficiency and related health conditions.

Composition

Each 5 mL contains:

- **Zinc Acetate:** 20 mg (providing elemental zinc as per U.S.P. standards)
- **Excipients:** (e.g., purified water, flavoring agents, preservatives, stabilizers)

Indications

This syrup is used for:

1. Treatment and prevention of zinc deficiency.
2. Management of Wilson's disease (to reduce copper absorption).
3. Boosting immune system function.
4. Supporting growth and development in children and adults.

Dosage and Administration

- **Adults:** 5 mL to 10 mL once or twice daily, as directed by the physician.
- **Children:** Dosage as prescribed by the pediatrician.
- Administer with or without food. Shake the bottle well before use.

Contraindications

- Known hypersensitivity to zinc acetate or any excipients in the formulation.

Precautions

- Use with caution in patients with kidney disease.
- Overdose may lead to symptoms of zinc toxicity such as nausea, vomiting, or diarrhea.
- Pregnant and lactating women should consult a healthcare provider before use.

Side Effects

Possible side effects include:

- Nausea or upset stomach
- Metallic taste
- Diarrhea
- Headache (rare)

Storage

- Store below 25°C in a cool, dry place.
- Keep out of reach of children.

Packaging

Available in 100 mL and 200 mL bottles with a measuring cup or spoon for accurate dosing.

Note: Always use under medical supervision. Do not exceed the recommended dose.
