

Information For the User
Fungal Diastase (1:1200) 50 mg + Pepsin (1:3000) 10 mg Syrup

Zymvigo 100 ml Syrup

Composition (per 5 ml):

Fungal Diastase (1:1200) — 50 mg

Pepsin (1:3000) — 10 mg

Description:

Zymvigo Syrup is a digestive enzyme formulation designed to aid digestion by breaking down complex carbohydrates and proteins. Fungal Diastase helps in the hydrolysis of starch into simpler sugars, improving carbohydrate digestion, while Pepsin facilitates the digestion of proteins into peptides and amino acids. This combination supports better nutrient absorption and alleviates symptoms related to indigestion and dyspepsia.

Indications:

Used in the management of digestive disorders such as indigestion, dyspepsia, flatulence, and loss of appetite. It is beneficial in conditions where pancreatic enzyme secretion is insufficient or impaired.

Mechanism of Action:

Fungal Diastase enzymatically breaks down starch molecules into maltose and glucose. Pepsin, an active proteolytic enzyme, catalyzes the cleavage of peptide bonds in proteins, enhancing protein digestion. Together, they promote efficient digestion and relief from gastrointestinal discomfort.

Dosage and Administration:

Adults and children: 5 ml to 10 ml three times a day or as prescribed by the physician. To be taken orally before or after meals.

Contraindications:

Known hypersensitivity to fungal diastase or pepsin. Not recommended in cases of peptic ulcers or acute gastritis without medical advice.

Warnings and Precautions:

Use with caution in patients with a history of allergies to enzyme preparations. Discontinue if signs of hypersensitivity occur.

Drug Interactions:

No significant drug interactions reported.

Side Effects:

Generally well tolerated. Rarely, mild gastrointestinal disturbances or allergic reactions such as rash or itching may occur.

Overdosage:

No specific antidote. Supportive treatment is advised if overdose symptoms appear.

Storage:

Store in a cool, dry place below 30°C. Protect from light and moisture. Keep out of reach of children.
