

Information For the User
Fungal Diastase (1:1200) 50mg + Pepsin (1:3000) 10mg

Zymvigo syrup

Zymvigo Syrup

(Fungal Diastase 50mg + Pepsin 10mg per 5ml)

Introduction

Zymvigo Syrup is a **digestive enzyme supplement** formulated to aid in **efficient digestion and relief from indigestion, bloating, and gastric discomfort**. It is commonly prescribed for individuals experiencing **digestive insufficiency, dyspepsia, or appetite loss** due to enzyme deficiency.

Composition & Mechanism of Action

- **Fungal Diastase (1:1200) – 50mg**
 - A powerful **amylolytic enzyme** that breaks down **complex carbohydrates into simpler sugars**, promoting **better digestion and nutrient absorption**.
 - Helps relieve **gas, bloating, and fullness** after meals.
- **Pepsin (1:3000) – 10mg**
 - A **proteolytic enzyme** that aids in the **breakdown of proteins into peptides and amino acids**, ensuring **optimal digestion and absorption**.
 - Supports the stomach's ability to process **protein-rich foods**.

Indications & Uses

Zymvigo Syrup is used for:

- **Indigestion, bloating, and gas relief.**
- **Improving digestion in enzyme-deficient conditions.**
- **Appetite stimulation in children and adults.**
- **Gastric discomfort caused by heavy meals or digestive disorders.**
- **Supporting digestive health in conditions like chronic dyspepsia and malabsorption syndromes.**

Dosage & Administration

- **Adults:** 1-2 teaspoons (5-10ml) after meals or as prescribed.
- **Children:** ½-1 teaspoon (2.5-5ml) after meals or as directed by the physician.
- **Shake well before use.**

Precautions & Warnings

- Avoid in individuals with **allergy to enzyme supplements**.
- Not recommended in **patients with peptic ulcers** without medical supervision.
- May cause **mild nausea or stomach discomfort** in some cases.
- **Do not exceed the recommended dose** without a doctor's advice.

Storage & Handling

- Store in a **cool, dry place**, away from direct sunlight.
- Keep the bottle tightly closed after use.
- Keep out of **reach of children**.

Conclusion

Zymvigo Syrup is an **effective digestive enzyme supplement** that helps **enhance digestion, relieve bloating, and improve appetite**. It is **beneficial for individuals with digestive disorders or enzyme deficiency**, making it a trusted choice for **better gastrointestinal health**.
