

Information For the User  
Dehydroepiandrosterone (75mg) SR Tablet

# Ovaflip SR Tablet

**Brand Name:** Ovaflip SR Tablet

**Dosage Form:** Sustained Release Tablet

**Composition:**

Each sustained-release tablet contains:

- **Dehydroepiandrosterone (DHEA) 75 mg SR**

**Description:**

Ovaflip SR Tablet contains Dehydroepiandrosterone (DHEA), a naturally occurring adrenal hormone that plays a key role in reproductive hormone balance. The sustained-release formulation ensures controlled and prolonged availability, helping maintain stable hormonal levels. It is commonly used in women with infertility related to diminished ovarian reserve or hormonal imbalance.

**Indications:**

Indicated for:

- Diminished ovarian reserve
- Hormonal imbalance associated with infertility
- Support in improving ovarian function and ovulation

It helps in **enhancing ovarian response and improving reproductive hormone levels.**

**Dosage & Administration:**

Take as directed by the physician.

Administer orally, preferably at the same time each day for consistent hormone levels.

**Pharmacological Action:**

DHEA serves as a precursor for estrogen and androgen synthesis.

It helps regulate reproductive hormones, supports follicular development, and improves ovarian function by enhancing androgen levels necessary for follicle growth.

**Side Effects:**

Mild acne or slight headache may occur in some patients.

**Precautions & Warnings:**

- Use with caution in patients with hormone-sensitive conditions.
- Regular monitoring of hormone levels is advised during therapy.
- Not recommended during pregnancy or lactation.
- Avoid use in patients with liver impairment unless medically supervised.

**Drug Interactions:**

May interact with hormonal therapies, corticosteroids, and antidiabetic medications.

**Storage:**

Store below **25°C**, in a cool, dry place.

Protect from light and moisture.

Keep out of reach of children.

Manufactured in India for:

**Cafoli Lifecare Pvt. Ltd.**
